Making Connections

Laughter could be heard from the auditorium as musclemen Hans and Franz welcomed students back on August 22. Hans and Franz were the characters Student Council used to help explain the year's theme of STEP IT UP. Student Council's goal for the opening day assembly was to **unite** the student body through serious speeches and goofy activities.

While Student Council had helped students **relate**, it was now time for the academic **link** to come into play.

Chatting excitedly, students filed out of the assembly and made their way through hallways decorated with "Welcome Back" signs into classrooms to **reconnect** with old teachers and make acquaintances with new teachers.

"The mood on the first day was really positive," Elise Jamison, freshman, said. "Everyone was really nice and I felt welcome. People talked to me, showed me around and introduced me to more people. After the first week or two, I already felt like a part of the school and student body."

As sporting events began, many freshmen found that the time put into high school sports formed **bonds** that when **linked** with the rest of their school life made getting up in the morning easier.

"Starting soccer in the summer made it so that when I showed up on the first day of school I already knew some of the upperclassmen," Matthew Saunders, freshman, said. "Soccer made things more enjoyable because knowing you had a game that afternoon made school easier to get through."

Clubs, such as National Honor Society, helped students **relate** with the rest of the community. On November 4, members of NHS went to the Brentwood Ice Rink to volunteer at an event created to allow people with disabilities to skate. While pushing wheelchairs and playing games on the ice with children, students found how much of an impact they played within the community.

"Helping out at the accessibility skate really made me feel like I played a part in the community," Andrew Newberry, junior, said. "I felt like I really made a difference to the people I helped."

The involvement of students in clubs, sports and academics helped students feel **connected**. After only a few months, Brentwood High School had once again become **united** as a single student body.

Touching Base

Hand-in-hand, Mrs. Jane Sneed, math teacher, greets Samantha Stolica, freshman, on Sept. 16. "The relationships with the students are very important because the more you care about them, the more they'll care about themselves," Mrs. Sneed said.

Three of a Kind

Hands in motion, Brittney Spencer, sophomore, explains to Charese Williams, junior, and Chauna Williams, sophomore, about what it would be like if she and Chauna were "made" into a dance team. On Feb. 14, a representative from MTV's *MADE* interviewed students who wanted to be on the show.

Helping Hands

Hands plastered to the wall, freshmen Audrey Rabenberg and Matthew Saunders work together to hang decorations for the winter dance on Feb. 3. The theme for the winter dance was "Havanna Nights: Beneath the City Lights."

With a steady grip, Ryan Schmuke, junior, makes friendly conversation with a participant in the accessibility skate. NHS members volunteered their time at the Brentwood Ice Rink on Nov. 4 to help people with disabilities skate.

Pump it Up

Acting as Hans and Franz, Jamie Klamert, junior, and Julia Montefalcon, senior, jump and hit chests on Aug. 22. The two StuCo members performed a skit during the opening day assembly. "The skit went well even though we came up with the idea only two days before. It got students to laugh and start the year on a positive note," Klamert said.

Sweet Relationships

The first thing most Brentwood students say when they are asked about their school is, "It's really small." Some people might think this is a bad thing, but there are a lot of positive qualities which result from Brentwood's size.

Our school's atmosphere has been compared to that of a large family, in which you are close to certain people and distant to others, but everyone knows almost everyone. Even if you don't know a student or faculty member by name, you usually at least know them by face. Although you may get along well with some and quarrel with others, at the end of the day, you're still a part of Brentwood.

"I think we trust each other more than students at other schools do because we know each other so well from being around each other so much," Katlyn Minard, sophomore, said.

"I enjoy the atmosphere of a small town and big city," said Mr. Ed Wright, history teacher and 1967 Brentwood High graduate. "You pretty much know everybody and it's hard to be obscure because it's so small."

Whether it's because of the close relationships between students and their teachers or the connections students have to Brentwood through family, our school is unique in that each student is related to each other in one way or another.

Ready? O.K.!

Arms and legs extended, Julie Duke jumps into the air demonstrating a cheerleading move called a Herkie. "It was actually a normal German class and we wanted to get pictures of the wall since it's going to be painted over, so we just started to jump around," Duke said. The mural on the wall of the German room, created by Art Society students in 1985, depicted European scenes. The mural had deteriorated over time and couldn't be saved.

Q ■ ■

What is your most memorable moment from school so far?

Our 5th grade teacher at McGrath, Mr. Smith, played a guitar and sang "American Pie" by Don McLean. It was awesome. - Andrew Phillips

Once, three girls paid me all their Halloween candy to kiss them on the cheek, but I just took all their candy and ran away. - Dan Keuss

My most memorable moment was when the boys soccer team went to the state tournament my sophomore year. - Eric Farlow

When I was in elementary we had this huge parachute to play with in gym class and I always tried to stand next to a girl. - Jonathan Petty

I always liked having Herr Thomas for German class. He had cool and funny ways of teaching us. - Todd Plein

The best memories from school are being conference champs all four years for girls soccer. - Kristin Gibson

Senior year in Coach Hughes's advisory, we had theme music of me walking to the kitchen and opening the fridge. - Ciara Clark

Back In the Day

"When we were younger, we didn't have to make hard decisions, such as where to go to college. Life was grand," said Galih Samoeri.

Grades, tests, and piles of homework never overwhelmed our minds. All we cared about was enjoying our time and having the most fun possible.

Throughout our days in elementary school, we anxiously awaited the moment the teacher would excuse us for recess. Jumping out from behind our desks we would race to get in the single file line at the door so we could go outside. Now, we often get so stressed out that we forget to enjoy the simple things in life.

As we get older and more mature, we forget the simple things that we used to look forward to on a regular basis, such as weekly Saturday morning cartoons, monkey bars at the local park, or learning to ride a bike without the dreaded training wheels. We can't forget such things because once we do we've lost a part of ourselves that we can never get back.

"It's important to have innocence and an open mind. Sometimes we're too quick to judge so we need to remember the simple things," said Julia Madras.

Spirit Dance

Rashad Hunter and Isaac Kinnard dance to music being played at the FOX 2 pep assembly on Sept. 9. FOX 2 came to BHS to get coverage of a pep assembly at a small school. "The FOX 2 assembly gave Brentwood a chance to show that a small school can have just as much spirit as a big one," Hunter said.

A Wave of Super Fans

Sitting on the floor, Alex Connor tries to hold still while Sara Anderson attempts to put his short hair into pigtails. Today was to begin Connor's job as the field hockey team's manager and "Super Fan".

"Here, go put this on," Carrie Smith tells Connor, handing him a shirt she and Erica Imergoot had made him. Decorating the shirt are a purple and gold Superman "S" and messages from all the field hockey girls.

Half an hour later, Connor and the girls are piled into Sara's car, "My Humps" playing from the stereo, making their way to Mark Twain Elementary School for the field hockey game.

Laughter can be heard as the rest of the girls catch a glimpse of Connor stepping out of the car with his pigtails bouncing as he walks. "Hey ladies, your Super Fan is here," he yells, greeting the team.

Once the shock of Connor's attire has worn off, the girls begin their warm up. When they get to the "rapid fire" drill, Connor picks up a field hockey stick and joins in. After missing the first few of his shots, he brings his arms up and slams the ball, sending it rushing past goalie Amy Moushey. "Keep hitting it like that, Alex, and we might have to get you in a kilt and put you on the field," Smith laughs.

As the whistle blows to begin play, Connor takes his seat on the bench where he takes on the additional role of team manager. "I love you! That's my wife!" he calls to Nancy Pozzo as she maneuvers her way down the field. The team of girls smiles as they hear Connor call out encouraging words to them.

As the season ends and field hockey balls are put aside, "Super Fan" Connor continues his support. By this time others have joined his "Super Fan" squad as winter sports begin.

Connor walks into the gym with friends Ethan Griesemer, Isaac Ginnard, Andrew Newberry, Nick Lape, Justin Grissom and Roger Jackson. Taking a seat on the bleachers, the boys joke around while waiting for the Lady Eagles to take the court.

"Dirty Little Secret" blares from the gym's speakers as the team emerges from the locker room. As soon as the girls reach the middle of the floor to begin their warm up, the guys begin cheering them on.

When the cheerleaders start "The Mighty Eagles" cheer, the fans jump to their feet to cheer along. The crowd enjoys the display of spirit. "You think they practice?" Maggie Saunders playfully asks fellow teammate Liz Eschbach out on the basketball court.

Two minutes are left in the game and the Lady Eagles trail by a good amount. The boys, however, are not discouraged as they remain standing and cheering. As the final buzzer sounds, the boys climb down the stands to console the team. After making sure to hug everyone, the "Super Fans" file out of the gym, still smiling despite the loss, and already making plans for the next game.

Pretty Please?

Smiling widely, Chelsea Schade asks Kaitlyn Minard if she is keeping her "Class of 2008" sweatshirt. Sweatshirts were available for students who ordered rings from Jostens. "I wanted one because it shows school spirit, not to mention it's comfortable," Schade said. Although Schade didn't choose a ring at the meeting, she did leave with a sweatshirt given to her by Jake Mortensen.

Waiting Their Turns

Biting on her pen, Mallory Setzekorn talks with Erica Imergoot in the lecture hall as they wait in line to pick out their class rings on March 8. Imergoot said she remembers feeling sick and miserable that day. "I just wanted to go home and sleep in my 'Class of 2008' sweatshirt," Imergoot said.

Similar Tastes

Looking closely, Danielle Huggins and Tanesha Jackson point to a ring that both like. The two ended up selecting similar rings, both with white gold and diamonds. "I was really excited about picking out my ring," Huggins said. "I've been looking forward to it since I was in the seventh grade."

photo by Kalvin Braddock

Continuing Traditions

Getting your drivers license, getting your first job, and choosing your class ring are all rites of passage. These are some of the events and experiences in our lives that bring us teenagers closer to adulthood.

The sophomore year is especially pivotal, with many students celebrating their sixteenth birthdays by getting their drivers licenses and applying for their first jobs.

On March 8, students from the class of 2008 experienced a traditional rite of passage by choosing their class rings. Students gathered in the lecture hall during advisory for fittings with representatives from Jostens.

Rings are custom-made to each student's specifications. "Class rings represent your achievements, your memories, and your school," Homaira Naimi said. Some students choose to have their activities engraved on their rings. For this reason, rings can be fairly expensive. Many students, however, feel that class rings are well worth the price. "I've wanted one for two years now and I think that their value outweighs their price," Britteny Spencer said.

When students left the lecture hall they had reached a milestone. They had crossed the threshold into a new world with their rings to remind them every step of the way. Years from now students will be able to look back and remember everything about their time here at JHS. Philip Rock said, "A class ring is a little piece of high school that goes on forever."

by Kalvin Braddock

A Perfect Fit

A Jostens representative slides a ring onto Kelsey Unger's hand to determine the size of her finger. Unger's ring featured an engraving of a bible and a cross. "I've never been much of a ring person, but I thought they looked pretty," Unger said.

Fresh Out of the Box

Plastic wrap still in hand, Alison Macy holds up her newly received "Class of 2008" sweatshirt after picking out her class ring. The sweatshirt was two sizes too big for Macy. "It was like a dress," Macy explained. "It went all the way down to my knees."

Staying Afloat

If many members of the freshman class have any regrets about their first year in high school, it would be not doing all their homework and not working harder.

"If I could start the year over again, I would really try not to procrastinate when I'm given an assignment or major project," Jamil Noble said.

Linda Nichols said, "I would try harder in all of my classes and do all of my homework."

Many of the freshmen agreed that managing their time between school and extra-curricular sports is difficult in high school.

"The hardest thing is time management with classes, homework and sports," Victoria Barnes said.

Samantha Boyd said, "It's hard juggling homework, school, friends, family, personal issues, grades and sports."

"The hardest part has been managing my time. I have always been worried about finishing everything, especially with sports everyday," Audrey Rabenberg said.

Other freshmen thought that the homework alone made high school more strenuous.

"It's hard when there is a lot more homework than in middle school, and the teachers expect a lot more of you," Emily Youngstrom said.

Freshmen say they enjoyed the greater amount of freedom they received from teachers compared to middle school and more opportunities to meet people.

"The best part is the freedom that we have. Teachers aren't holding our hands anymore," Rabenberg said.

Nichols said, "The best part of high school is having classes with people from other grades, so you get to meet more people."

Their advice to the upcoming freshmen class mainly revolved around working hard from the start of the year.

"I would say to really focus on your studies. What grades you get will not actually matter in your G.P.A. and in applying to college," Blake Almore said.

Kevin Johnson said he would advise the freshmen next year to get homework done on time. "When you're behind, it's hard to get caught up."

Creative Learning

Brentwood High School received the Missouri Gold Star Award for the second time. This award is given to schools that hold a high percentage of students who score in the proficient or advanced level on the Missouri Assessment Program state tests for at least three consecutive years.

"The Gold Star Award represents the commitment of students, the quality of instruction and the quality of curriculum," Principal Mr. David Faulkner said.

We were one of ten schools in Missouri that were given the Gold Star Award.

"Being one of ten schools to receive this award is a great honor. It recognizes us for doing a good job," Mr. Faulkner said.

Mr. Faulkner, Superintendent Dr. Charles Penberthy, Mr. John Schalda and Ms. Kelly Javier traveled to Jefferson City to accept the award on May 11.

"It recognizes all the efforts people put in every year at our school. In a way, it is a pat on the back," Mr. Faulkner said.

Sicks and Stones...

Broken bones, stitches and other injuries became a huge part of sports this year.

Kenny Jones, freshman, broke his arm when he was wrestling Ryan Mason at practice.

"I was just wrestling with him and somehow I broke my arm," Jones said.

Carrie Smith, junior, got her shin cut open by a stick while playing in a JV field hockey game and had to get stitches.

"I had to miss a couple of games and practices and I was mad that I couldn't play," Smith said. "When I came back, I was timid at first because I didn't want to get hit in the same spot again."

I, too, had more than my share of injuries. Early in the fall season, I cut my shin open in the same spot as Carrie and had to get stitches too. I also broke my nose when I got hit in the face with a field hockey stick during a game against Ladue. In a game against Maplewood, during soccer season, I kicked a girl's shinguard, but I kept playing. The next day I found out my foot was broken.

Anthony Otte, junior, tore his ACL when he was playing in a football game against Crystal City.

"I took a helmet to the back of my knee," Otte said, "went out of the game, stretched, and kept playing. My coaches and I didn't think it was injured, but after that game I was out the rest of the season."

John Johnston, junior, broke his wrist and his collarbone when playing in games during the soccer season.

During basketball season, Isaac Kinnard, junior, got concussion during a game against Hancock.

"During the first or second quarter, I was tripped and hit my head," Kinnard said. "I couldn't really see out of my left eye, but I kept playing. Later in the game, I got hit in the head again and went unconscious."

Even staff members had their share of injuries. Assistant Principal Mr. Ed Johnson ruptured his Achilles tendon in the Staff vs. Student basketball game before spring break.

"I was making a movement to receive the ball and it just snapped," Mr. Johnson said.

Fighting Through

Ponytail swinging, Colleen Emge, striker, fights with the ball through a group of Bayless players on May 9. Even after losing six starters from last year, the girls finished the season first in their conference. "It was really exciting being Conference Champs for the 4th year in a row because people didn't expect us to do as well as last year," Emge said.

'Goin' Over' One Last Time

As most of you know, Coach Jim Taylor has decided to retire after spending 33 years working in our school district. During this time, he has spent five years as Athletic Director and the rest as the chairman of the PE department, coaching both baseball and football and teaching. "I'll miss the kids, but it's not like they'll never see me again; I'll still be supervising some games," Coach Taylor said.

Along with respect and gratitude, one of the traits that people say they admire most about Coach Taylor is his dedication to the school. "I liked that he did everything to the highest extent possible," Carli Marlowe, sophomore, said.

Coach Taylor's schedule was always filled to the brim. With plenty of free time he has on his hands, what is he going to do? "I enjoy golf and would love to travel to the West Coast, Hawaii and Europe," he said. "Also, I'd love to work with the Cardinals down at the new stadium. It would just be a really great experience."

It was Coach Taylor's love for kids and sports that brought him here and he's leaving us with plenty of memories. "I'll never forget when we won state baseball in '78 and '86 and when football played for state in '87," he said.

Mr. Ed Johnson, current assistant principal, will be filling in Coach Taylor's shoes as the Athletic Director starting with the 2006-2007 school year.

"Good luck and have tons of energy," Coach Taylor said laughingly while giving advice to Mr. Johnson.

During the years, Coach Taylor coached, taught, and mentored numerous kids. "I'm really proud that more than twenty of my past students went on to play college baseball," he said.

Taylor was not only a member of the staff, but also a member of the Brentwood family. "He's pretty much been like a grandpa to me for a long time and I can talk to him about anything," Mallory Setzekorn, sophomore, said.

"Jim [Taylor] has been a great part of my life for so many years. He's not only my co-worker, he's one of my good friends," PE Chairman Mr. Mike Imergoot explained. "I remember when he used to have barbeques and pool parties at his house; my whole family came along. It was a great time. I'll miss him."

Between Friends

CRAZY MEMORIES...

"When I came to tour Brentwood as a new student, I followed Julie Duke around school. When I went to her German class with her, I sat across from Nathan Bruning, and we started talking about *The Lord of the Rings*, and how much we both liked it. He then drew a picture of Saruman's staff on my pants, which didn't wash out for about a year." -Marley Tippet, senior.

"My friends and I used to play spin the cell phone in my RV." -Julia Madras, senior.

"One night this year Nancy [Pozzo], Maggie [Saunders] and I were driving home. I was joking around and pulled the keys out of the ignition and Nancy and Maggie freaked out because they didn't think you could do that." -Emily Becker, junior.

"In second grade Amy [Moushey] and I had the chicken pox at the same time so our parents let us stay home and play together." -Carrie Smith, junior.

"I always tell Homaira [Naimi] that she keeps me in shape because she likes to say embarrassing, but in a good way, things to people so we're always having to run away." -SoRelle Peat, sophomore.

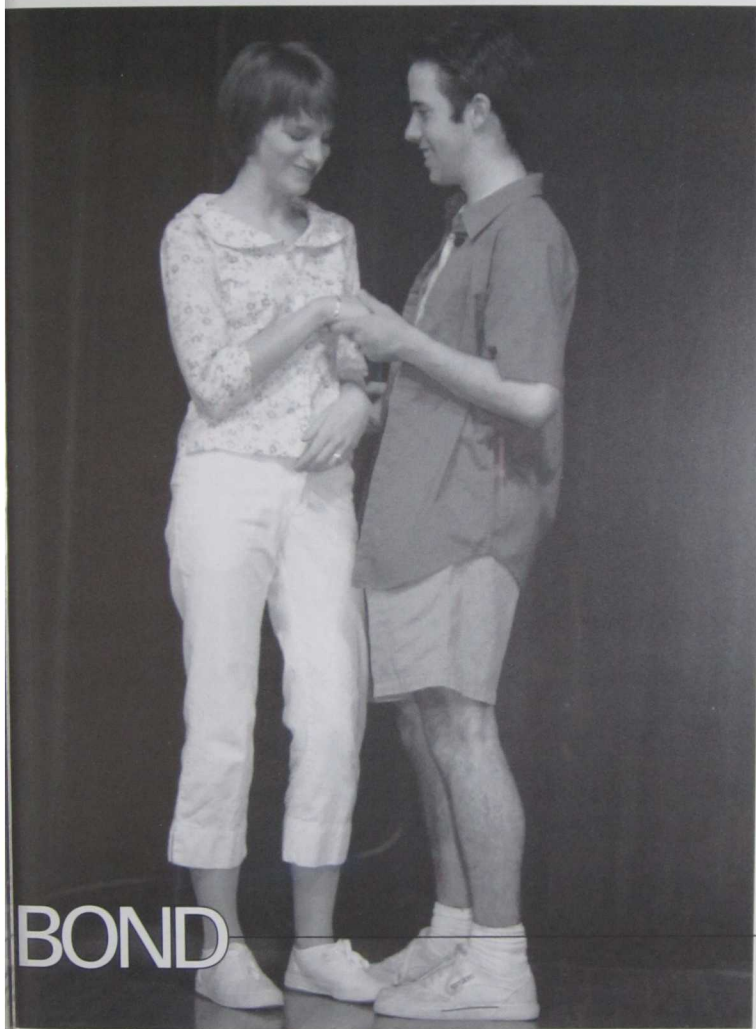

"Marcus [Hayes], Cory [Higgins] and I were in Cory's backyard and Marcus was trying to do a trick on his bike and he ran into a window and broke it." -Ben Poettgen, sophomore.

"Catherine [Boyd] and I would switch classes for the day in elementary school and the teachers never knew until the end of the year when we told them." -Fraternal twin Samantha Boyd, freshman.

A Dream Come True

A Real Dream Come True |

With immense joy, Julie Duke, senior, is crowned Prom Queen by junior Samirah Rahaman. Teddy Mayer, her date, was crowned Prom King just moments before. "I was more excited to hear them call Ted's name," Duke said. "It was awesome."

photo by Nathan Bruning

Too Excited |

Arms flared, Samira Naimi, senior, busts a move. Naimi was very excited to see one of her best friends crowned Prom Queen. "The bathrooms were gorgeous," Naimi said. "A lot of girls were hanging out in them because they had couches and chairs for the girls to sit and talk."

Linked for Life

Caps are thrown into the air as the class of 2006 evolves from seniors to graduates. Goodbyes are said as many of the graduates part for the last time after years of seeing each other on a daily basis. The graduates, however, won't be leaving behind the **bonds** created at BHS as they prepare to leave for college or to find work, but will hold onto old friendships as they create new ones.

Throughout the year students **related** to one another through academics, clubs and sports. Not only did the students come in close **contact** with each other, but they also became close to teachers. "I really like how, because of Brentwood's size, teachers and students could form close relationships," Julia Madras, senior, said.

Eventually, many students stopped thinking of Brentwood's small size as a negative and came to appreciate the almost family-like environment. "I like how I knew a lot of people even though it was my first year in high school," Sam Casey, freshman, said.

Counting down the months, days and hours, students waited eagerly to escape school and enter into a summer of long nights and lazy days.

While underclassmen celebrate the three months of recovery from the year, graduates grow nervous to venture into their new lives and try to find a place as welcoming as the one they had at BHS. Leaving behind the place they grew up, graduates will remain **linked** to their past at Brentwood while branching out and creating new **links**. "Growing up in Brentwood formed friendships and **bonds** that couldn't happen at other schools," Eric Farlow, senior, said. "Everyone was so close-knit. It's going to be hard to find a group of friends in college that is as large and welcoming as Brentwood has been to me."

Friends for Life

Sophomores Katlyn Minard, Ellen Vierser and Marjorie Fisher enjoy a sunny afternoon in the Commons during lunch on April 14. The girls have all been friends since the sixth grade. "We talk about anything and everything," said Fisher, "tests, school, stuff outside of school and what we're doing on Friday night."

Yearbook is eating our souls!

COLOPHON

This 73rd edition of the Eagle was produced by Nathan Bruning, editor-in-chief; Nancy Pozzo, copy editor; Marley Tippet, yearbook princess; John Johnston, layout editor; Magdalene Schoeberlein, graphics library manager; Kalvin Braddock, photo assignment and camera manager; and Maggie Saunders, ad sales manager. Mrs. Kellie Smoller, who could find a story, in just about anything, was our awesome adviser. The book was produced during 2nd period or "B" days and many hours after school. There were 160 books printed by *Herff Jones Yearbook*. The book was designed by the staff using Adobe InDesign CS2. Photos were downloaded using Canon ImageBrowser and placed on the pages using Herff Jones Image In. All files were managed and kept on the BHS server. All pictures were taken using a Canon EOS D30 and a Canon Digital Rebel with a Canon Ultrasonic lens and a Sigma wide-angle telephoto lens. The Eagle is a member of the Sponsors of School Publications, Journalism Education Association, and National Scholastic Press Association.

THANK YOU

On Behalf of the Eagle staff we would like to thank Mrs. Kellie Smoller for many hours days spent putting up with our loud talking and constant procrastination. We would also like to thank Leah Blase for her always up-beat attitude, her positive thinking and, of course, her candy; Mr. Jeff Gregor for his help with our server problems and ordering us Adobe CS2 (wahoo!); Mr. Dennis Fortna for helping with our camera woes; Kelsey Risman for helping with endless proofreading; Principal David Faulkner for always supporting us and answering every question we throw at him; Superintendent Dr. Charles Penberthy for his support; the Brentwood School Board for their funds and finally, the students and staff of BHS for doing all that stuff for us to report on. Thanks for a great year.

Nate Bruning
Editor-in-Chief
